

XEN/XEO BATTERY OPTIONS

Xen/Xeo units with Serial Nos. 0-1250 were made with BLACK battery holders. These are compatible with:

- **disposable ER 14335M batteries, ONLY.**

The adjacent table shows “standby drain” as the unit detects taps, and adjusts the dive time accordingly.

Battery ER14335M	
Months inside unit	Dive Time on Default Settings
1	28.8
2	21.6
3	14.4
4	7.2
5	0
6	0

Xen/Xeo units with Serial Nos. 1251 and above were made with WHITE battery holders. These are compatible with both:

- **disposable ER 17335M batteries**, with blue wrappers, which offer significant greater dive time than ER14335M

The adjacent table shows “standby drain” as the unit detects taps, and adjusts the dive time accordingly.

Battery ER17335M	
Months inside unit	Dive Time on Default Settings
1	60
2	48
3	36
4	24
5	12
6	0

- **rechargeable ICR16340 batteries**, with green wrappers, which offer shorter dive spans, but can be recharged up to 1000 times.

The adjacent table shows “standby drain” as the unit detects taps, AND the 5% self-discharge of the battery each month, and adjusts the dive time accordingly.
